### **Product Description**

When you realize that your being is not just yours, you have transcended into the Universal. It happens when you give up your addiction to your small identity. It is the

realm of elders, of saints where you operate at a much more universal flow. You relate, not as an individual but as a Universal Being.

The 10th dimension is growth beyond structures. There are no hiding places. If you can imagine how much comes out when there's no place to hide. We expect that breakthroughs will show themselves in your world. What you learn will move out into the unified field so that others can begin to move beyond what has been possible, even beyond what can be fathomed. This experiment is to **encompass consciousness that's not limited by itself**. Humans have never done this before.
